SUMMARY

Software Engineering graduate student with 2+ years of experience in software development and project management. Skilled in database design, cloud platforms, object-oriented programming, and automation. Seeking internship opportunities for summer 2025 to apply and enhance my expertise in software engineering.

EDUCATION

Master of Science (MS) in Software Engineering Arizona State University, Tempe, Arizona, USA	Aug 2024 – May 2026 CGPA: 3.67/4.0
Bachelor of Engineering (B.E) in Electronics & Telecommunication Savitribai Phule Pune University, Pune, Maharashtra, India	Aug 2015 – May 2019 CGPA: 6.35/10.0

TECHNICAL SKILLS

Technologies: Python, JavaScript, TypeScript, SQL (MySQL, SQL Server), HTML, CSS, Amazon Web Services (AWS), Microsoft Azure, ML

Tools: Git, Github, PyCharm, Microsoft Office, VS Code, Eclipse, IntelliJ, JIRA

PROFESSIONAL EXPERIENCE

Full-Stack Developer, Neharika Enterprises – Pune, India	Sept 2022 – June 2024
- Designed and developed scalable web applications using React, Node.js, and MongoDB, implementing RESTful APIs and WebSocket connections for real-time data updates, improving user engagement and application performance. - Enhanced application efficiency by optimizing performance through code splitting and lazy loading techniques, resulting in a 40% reduction in load times while maintaining cross-browser compatibility	
Trainee RF Engineer, Amdocs – Pune, India	Oct 2021 – Aug 2022
- Drafted and deployed fiber cable to the end point using Aramis tool for AT&T - Collaborated with AT&T to ensure successful planning & design of FTTH, FTTN, and FTTB projects, including deployment of fiber cable to end points utilizing Lighting F2 technology	
Software Development Intern, CCA Education Private Limited – Pune, India	Nov 2019 – Oct 2021
- Built and maintained responsive web pages using HTML, CSS, and JavaScript, contributing to improved user experience and faster page load times - Collaborated with the development team to implement new features and fix bugs, gaining hands-on experience in front-end frameworks and version control tools	

PROJECTS

Stock Price Prediction Using Machine Learning

- Worked on a project that involved using machine learning algorithms to predict stock prices based on historical data, technical indicators, and market sentiment analysis.

Virtual Fitness Coach

- Application prototype to score the exercise position using posnet and track progress.

Bigtable Database Development

- Using a relational database, develop Bigtable with functionalities - row/column indexing, buffer manager, sort, merge, query.

Understanding the Nature of Consciousness with AI - IRJET Volume 10, Issue 8, August 2023, S.No:149 Link: https://www.irjet.net/archives/V10/i8/IRJET-V10I8149.pdf	Jan 2023 – Aug 2023

COURSES & CERTIFICATIONS

AWS re/Start- INMUM23	Dec 2022 – Mar 2023
Completed comprehensive training on AWS services (EC2, IAM, VPC, CloudTrail, databases), DevOps, Amazon principles	
Pre-cat Course by Sunbeam	Oct 2019 – Dec 2019
Aptitude, C programming, data structures, data communication & networking, OOP concepts (C++) & OS.
